Property Description

Casa Vista Cascada is a modern oasis where you can come and relax with beautiful views of the waterfall right from your back patio. This one-level floor plan is divided into three wings with the master suite comprising one wing and the two large guest bedrooms on the other, connected by glass breezeways which lead to the center of the home: the large main living area with beautiful custom finishings and floor to ceiling windows for maximum airflow and natural sunlight. This incredible property also boasts a built-in atrium, doubling as an inward-flowing water feature when the rain falls, inviting the outdoors in as well as perfect views of the waterfall right outside your backdoor. The river flowing through the middle of the property creates a natural corridor for wildlife which is perfect for bird watching, visits from troops of monkeys, among many other species of wildlife. From anywhere in the house you will also be able to hear the constant flow of the river all year.
