Property Description

This tropical modern spacious home features a great room with an indoor-outdoor feel, vaulted ceilings and kitchen with a large island. One of the main features is the ample deck area with a pool that connects the main house with a separate guest house equipped with two bedrooms, each with their own bathroom, a common kitchenette and a lounge area. Having two structures lends to this model being a fantastic investment property; rent the full home, or, stay in the main home and rent the other. Escape to your own tropical oasis at Tamarindo Park where you can live a life in harmony with nature. Inside Model Home B, you'll find large windows that merge the spaces allowing you to feel completely surrounded by the luscious garden area that enfold this eco-friendly home. The space within the home feels contemporary, with a spacious open floor plan and a neutral palette. However, as you venture outside, you'll find a true slice of paradise nestled between the main house and guest house, here the one-of-a-kind deck area is the not so hidden gem of this home.
