Property Description

Location, location, location! Located right in front of the Costanera highway, and between Uvita and Dominical this property offers an amazing location and huge potential. This beautiful property is located along the southern pacific coastline of Costa Rica and now better known as the Costa Ballena now, it has a valid concession contract and zoned for commercial build. The property has city potable water and a water meter is already in place. If you are an avid waterman, this site offers easy access to the playground for fishing off the rocks, or snorkeling in the shallow reefs where you will find an abundance of lobster as well as all types of fish to include pargo (red snapper), mackerel, jack crevalle, barracuda, sea bass, and rooster among many others! Coastal sites like this are very limited, do not miss out on this opportunity
