Property Description

This is a very special home in a super convenient location! In addition to the impressive architectural design, great care was taken to bring light into this house. Every room was flooded with light and a cool breeze from the large well-planned windows. This setting is both inviting and exotic. The rooms are spacious and comfortable setting. The dining room, the living room, and three of the bedrooms all open to outside terraces or balconies. The construction is all block and the finishes are of the highest quality. Even more impressive than the house are the grounds. The entire property is gated and there are three formal entrances with motorized gates. Two enter directly from the main road going to San Isidro and the third exits out the back of the property into the local neighborhood. The entire driveway is paved and spaciouly set out with enough covered parking for 6 cars. Inside the property, there is a fully functioning Tilapia pond with a cute little bridge over it, and this pond is nestled in a corner of the property and surrounded by flowering plants and trees.
