Property Description

Welcome to La Perla unit 133! The La Perla building is the last beach zone high rise building that will ever be made within 500 yards of the ocean in Tamarindo. It is about one full city block away and a three block walk to the soft white sands of Tamarindo beach. Each floor only has four residences in this six story building. Its elevated position on one of Tamarindo's hills allow gorgeous ocean views from the second floor on up. This third floor unit boasts views to Playa Grande, Playa Tamarindo, Captains Island and some of Langosta as well! Quality high end materials were used for the construction of this unique building including Schindler elevators, for example. The complex enjoys gated access with 24/7 security, underground parking, storage room, community swimming pool, community gymnasium, and lush tropical gardens. La Perla 133 is perfectly located on the front of the building. It is on the west side.
